LOT LINE ADJUSTMENT

Application Guide

WHAT IS A LOT LINE ADJUSTMENT?

A lot line adjustment is the realignment of a property line between two or more existing adjacent parcels, where the land taken from one parcel is added to an adjacent parcel, and where a greater number of parcels than originally existed is not thereby created. While the California Subdivision Map Act excludes lot line adjustments it does require that they be approved by a local agency (California Government Code ' 66412). In the City of Pleasant Hill, lot line adjustments are reviewed by the Planning and Engineering Divisions and must be approved by the Zoning Administrator and Director of Public Works and Community Development.

The Map Act advises that a local agency shall limit its review and approval to a determination of whether or not the parcels resulting from the lot line adjustment will conform to local zoning and building ordinances. A local agency shall not impose conditions or exactions on its approvals of a lot line adjustment except to conform to local zoning and building ordinances, or except to facilitate the relocation of existing utilities, infrastructure, or easements. No tentative map, parcel map, or final map shall be required as a condition to the approval of a lot line adjustment. The lot line adjustment must be reflected in deeds that are recorded. A record of survey may also be required to delineate and describe the new boundaries.

WHAT ARE THE SPECIFIC REVIEW CRITERIA FOR A LOT LINE ADJUSTMENT?

1. A lot line adjustment cannot create new parcels.
2. The adjustment must be approved by the Zoning Administrator.
3. Zoning and Building ordinances must be adhered to.
4. Existing utilities, infrastructure or easements must be maintained or relocated.
5. The lot line adjustment must be reflected in deeds that are recorded.
6. A record of survey may be required to delineate and describe the new boundaries.

WHAT ARE THE STEPS?

Step 1 Preliminary Review - Prior to submittal of a formal application, it is recommended that the applicant discuss the preliminary proposal with staff. The staff can, if requested, respond back in writing regarding the project conformity with the Zoning and Building Ordinances, application fee requirements, and other criteria.

Step 2 Filing the Application - Application for a lot line adjustment should be made on the Planning Division's Application for Development Review form. The application form must be accompanied by the additional supporting materials specified by the Planning Division, including plans, drawings, and other project description information necessary to permit adequate review of the proposed action. A filing fee will be required for each Line Adjustment application in the amount set by the City Council.

Public Works and Community Development Department staff members will be assigned to review the application materials for completeness and to prepare a recommendation to the Zoning Administrator. Additional information may be required as staff review of the project progresses.

Step 3 Zoning Administrator Review - The Zoning Administrator is designated by the City Council to determine approval, conditional approval, or denial of the application. After the Zoning Administrator's decision is made, that decision will become final within ten (10) days unless an appeal is filed as described below.

WHAT MUST BE SUBMITTED?

All submittal information required in the Lot Line Adjustment Submittal Requirements Checklist shall be presented including the Application for Development Review form and related fees, to the Planning Division before the application can be accepted as complete. A letter will be sent to the applicant within thirty (30) days indicating whether the application is complete or incomplete (with reasons), along with the name of the planner processing the application.

MAY A DECISION BE APPEALED?

You or anyone else who is dissatisfied with the decision of the Zoning Administrator may appeal that decision to the Planning Commission. To appeal, a written statement and filing fee must be filed with the Public Works and Community Development Director within ten (10) days after the decision is made, and the applicants notified. A public hearing will then be set before the Planning Commission to consider the appeal.

If no appeal to a decision is filed within ten (10) days, the decision of the Zoning Administrator will be considered final.
